

RHIP Workgroup Updates: March

Behavioral Health: Identification & Awareness

- This group meets the fourth Tuesday of every month from 9-10am and currently has 19 members.
- The group has decided that April's meeting will focus on the process of developing algorithms for PCPs around SBIRT/CRAFFT and depression screening outcomes and recommended pathways that will be used to educate the provider community. The group will discuss baseline OHP data for SBIRT/CRAFFT and depression screenings and learn about the SBIRT QIM to understand challenges and successes implementing these screenings. A side project with Bend/La Pine schools is also developing around a pilot of school-based behavioral health assessments and pathways for services within the community.

Behavioral Health: Substance Use and Chronic Pain

- This group meets the third Wednesday of every month from 4-5pm and currently has 16 members.
- During the April meeting, an example of a successful referral pathway to SUD programs will be developed that will be piloted through Mosaic Medical, refined, and then broadened throughout the community. The group will also develop a region-wide referral list for SUD programs that can be shared with providers. Additionally, a handout created by the Shared Futures Coalition will be updated and offered throughout the community for individuals in need of SUD services.

Cardiovascular Disease

- This group meets the fourth Tuesday of every month from 4-5pm and currently has 16 members.
- For year one, the workgroup decided to focus on the first health indicator, improving hypertension control. They are looking into expanding the staff training and blood pressure equipment standardization project that Mosaic Medical is piloting with QIM dollars. The group is also exploring partnering with schools, Boys and Girls Clubs, and similar programs throughout the region to increase physical activity and cardiovascular disease prevention and awareness.

Diabetes

- This group meets the second Thursday of every month from 9-10am and currently has 18 members.
- The group is developing a comprehensive list of pre-diabetes and diabetes programs throughout the region. This list will help to identify gaps and focus efforts. These resources will also be used to create a list of opportunities for providers and organizations to refer their clients to throughout Central Oregon.

RHIP Workgroup Updates: March

Oral Health

- This group meets the third Tuesday of every month from 11-12pm and currently has 15 members.
- The group requested a hard copy of the Oral Health Coalition document for their April Meeting. They will provide recommendations for a resource library/repository. The group is using the Spectrum of Prevention, and will align all current efforts within the framework at the April meeting. A presentation of the 'Launch' PSA program will occur in April.

Reproductive Health/Maternal Child Health

- This group meets the second Tuesday of every month from 4-5pm and currently has 16 members.
- The April meeting will have a Perinatal Care Continuum Presentation. They will review 1st trimester visits not captured for credit (included in global cap). Additionally, the group requested an AFIX presentation for the May meeting.

Social Determinants of Health

- This group meets the third Friday of every month from 10-11am and currently has 32 members.

Education & Health

- Identifying what gaps exist using 5 dimensions as outlined in the Early Learning Hub work.

Housing

- The workgroup decided to create a subcommittee to develop housing project ideas. During the April workgroup meeting, members will vet and prioritize project ideas and develop an implementation timeline if time allows.
