

## 2016-2019 Central Oregon Regional Health Improvement Plan Work Plan DRAFT v8

### **RHIP Priority: Housing**

The lack of safe and affordable housing in Central Oregon has become more than just a question of access and availability – it has become a public health crisis. Low-income families in all three counties struggle to find affordable housing. Homelessness persists and is becoming more widespread, while in many instances, it remains relatively invisible. Given all we know about the importance of housing to health, the current housing environment in this region is widening and exacerbating inequities and health disparities that impact people with fewer financial and support resources. This is particularly true for individuals and families trapped in a cycle of crisis and housing instability due to growing poverty, trauma, violence, mental illness, addiction or other chronic health conditions.

The Social Determinants of Health - Housing Workgroup (“Housing Workgroup”) is comprised of individuals, organizations and agencies across many areas – affordable housing, homelessness, health care, social services, education and transportation - who are focused on promoting the vulnerable and at-risk end of the housing spectrum: those who are homeless and those in need of very low income, low income and workforce housing. The Housing Workgroup acknowledges that we must bridge housing solutions with the health system. As such, this group will work to address issues of housing using a health lens, beginning with laying a strong foundation of developing agreed upon definitions around key terms (i.e. homelessness, workforce housing, housing stressed, etc.) and identifying the data needs and resources to develop meaningful analysis. These data will then be used to focus on our current priority areas and goals which include:

- 1. Organizational Capacity** – To develop shared definitions and conduct a data needs assessment
- 2. Policy** - To be an effective resource to local municipalities on developing policies and programs that increase affordable housing options and supports
- 3. Advocacy** - To help support projects and pass specific legislation and ordinances that impact local and state housing policies and counter a NIMBY perspective
- 4. Outreach and Awareness** - To gather and analyze data and share actionable information on homelessness and affordable housing
- 5. New Initiatives** - To support new cross sector initiatives with a focus on non-traditional, disruptive innovation

**Goal 1: Organizational Capacity – To develop shared definitions and conduct a data needs assessment**
