 - Who agrees to do what before Sept 21st

Next Meeting: Sept 21st, from 11am-12pm

RHIP ORAL HEALTH WORK GROUP 2016-2019 WORK PLAN

Draft - 7-25-16

Clinical goal: improve oral health for pre- and post-natal women
Prevention goal: keep children cavity free

Spectrum of Prevention– developing a comprehensive approach/ broad framework for planning population health interventions/improvements and coordination of multiple programs, initiatives or agencies

KEY IMPROVEMENT FOCUS AREAS:

1. **Medical-Dental Integration** (“putting the mouth back in the body”; oral health as a key to overall health & wellness)
2. **Access to and utilization of preventative dental care interventions** (regular dental visits/exams, oral health instruction, fluoride and sealant applications, mobile/portable dental services, non-traditional dental settings, tele-dentistry. workforce capacity)
3. **Identification and expanded implementation of successful and/or emerging best practices that support 1 & 2 above** (national, state, regional and local)

Planning Format

Spectrum of Prevention Approach	<u>Inventory of Activities: existing/ emerging</u>	Next steps	Gaps/ Opportunities	Action steps	Assigned to (Subteam/ Organization)	Schedule
Influencing policy & Legislation						Complete inventory by end of 3 rd Qtr 2016
Changing Organizational Practices						Complete inventory by end of 3 rd Qtr 2016
Fostering Coalitions & Networks						Complete inventory by end of 3 rd Qtr 2016
Educating Providers						Complete inventory by end of 3 rd Qtr 2016
Promoting Community Education						Complete inventory by end of 3 rd Qtr 2016
Promoting Individual Knowledge & Strengths						Complete inventory by end of 3 rd Qtr 2016

Spectrum of Prevention Approach	Inventory of Activities: existing/emerging	Next steps	Gaps/ Opportunities	Action steps	Assigned to	Schedule
