Priority Area: XXX

The Problem

(insert paragraph on why this is a priority)

(Insert Data from 2019 RHA: Quantitative & Qualitative)

Aim/Goal (What are we trying to accomplish in this topic/where do we want to be by December 31, 2023?)

One to two sentences max.

Current State

(Baseline must come from 2019 RHA, QIMs, Public Health Accountability Metrics, or be a process or outcome measure that can be tracked yearly at minimum. Must be easily tracked for progress. (Must include Baseline #, Source, Year) (Required: At least one outcome metric. No more than three total metrics!)

Future State

*(insert health improvement target in same format as current state)
Ex: By December 2023, improve X from XX% to XX%. (Same Source as Current state: Source, Year)*

Action Area	Potential Strategies to Address Priority Area
Health Promotion & Education (Messaging)	(Insert at least one evidence-based or best practice strategy. No more than five total strategies.)
Access to Preventative Health Services	(Insert at least one evidence-based or best practice strategy. No more than five total strategies.)
Policy	(Insert at least one evidence-based or best practice strategy. No more than five total strategies.)
Redesigning Models of Services	(Insert at least one evidence-based or best practice strategy. No more than five total strategies.)
Collaboration Across Systems	(Insert at least one evidence-based or best practice strategy. No more than five total strategies.)
Equitable Access to Services	(Insert at least one evidence-based or best practice strategy. No more than five total strategies.)

Key Regional Partnerships: (insert key partner organizations that are essential to the success of this priority)

Please Incorporate the following:

- ⇒ Strategies and/or partnerships that include SBHCs
- ⇒ Include the entire geographic region, including Warm Springs & Northern Klamath
- ⇒ ALL residents, not just Medicaid
- ⇒ Strategies that include Traditional Health Workers
- ⇒ Strategies that address transportation
- ⇒ Please remember the connectivity/continuity between the “action areas” to ensure a comprehensive approach
- ⇒ Incorporate health equity throughout all “action areas”

2020-2023 RHIP Action Area Descriptions

Health Promotion & Education (Messaging)

Any combination of learning experiences designed to help individuals and communities improve their health, by increasing their knowledge or influencing their attitudes.

Access to Preventative Health Services

When considering access to preventative health services, it is important to also include all types of coverage, primary care/prevention services, services addressing social determinants of health, timeliness of service, oral, and behavioral health services. Access strategies may look different based on the Central Oregon community and geographic need.

Policy

Organizational, local/community, county, or state-level policy and/or other decision-making opportunities, focusing on the priority area.

Redesigning Models of Services

Making systemic changes to health-related service delivery to improve the quality, equity, efficiency, and effectiveness of services and interventions for end-users.

Collaboration Across Systems

Organizations from different and varying parts of the community aligning forces to decrease costs, provide equitable services in the right setting, generate value, and break down barriers to comprehensive and individualized health. Types of organizations to be considered, but not limited to include: health care, hospital, education, public health, businesses, non-profits, community-based, etc.

Equitable Access to Services

Equity access to services means all individuals are able to access high quality, timely, cultural and linguistically personalized resources and supports needed for optimal health. This is achieved when every person has the opportunity to attain their full health potential and no one is deprived from achieving this potential because of social position or other socially determined circumstances. Equitable access strategies may look different based on the Central Oregon community and geographic need.
