Behavioral Health: Increase Access and Coordination
Regional Health Improvement Plan Workgroup

### Future State Metrics – Full Detail

1. By December 2023, improve the availability of behavioral health providers in the marginalized areas of the region (La Pine, Madras, Redmond) to exceed the Oregon average for rural areas of 0.62 in 2019 as measured by ‘mental health providers per 1,000 population’.

2. By December 2023, a method is developed to measure timeliness and engagement with specialty behavioral health referred from primary care.

3. By December 2023, a method is developed to standardize screening processes to assure clients receive the appropriate level of care and follow-up across various services in Central Oregon.
Regional Health Improvement Plan (RHIP) Workgroup

Guiding Principles

Shared Focus
We come together to improve the health and well-being of individuals living in various and diverse communities throughout Central Oregon region. We use the Regional Health Improvement Plan (RHIP) as our guide. It is our region’s shared vision of current problems and our aims. As workgroup partners we develop agreed-upon actions to solve the issues and keep the needs of our communities as the main focus.

Shared Metrics
We measure progress, process and outcomes through a shared lens. We use the Regional Health Assessment (RHA), Regional Health Improvement Plan and community dashboard.

Involve Targeted Population
The individuals living in our diverse Central Oregon communities are the center of our work. We make every effort to include people from every part of the region in our workgroups, discussions, processes and decisions.

Collaborate to Solve Complex Issues
Inviting diverse perspectives from throughout the Central Oregon region deepens our shared understanding of complex issues and propels us toward better progress and outcomes. We practice frequent, structured, open communication to build trust, assure shared objectives, and create common motivation. We respect the privacy and sensitivity of information partners share.

Coordinate Collective Efforts
We are made up of diverse partner organizations and individuals with unique strengths, skills, and resources. We coordinate our efforts and use our unique strengths and skills to meet the goals of the RHIP.

Learn and Adapt Together
We embrace shared learning and a growth mindset. We create a space that allows for mistakes, failures, second changes, and a celebration of brave attempts. We adjust and apply our learnings to the complex and changing landscape of health and well-being in Central Oregon.
Behavioral Health: Increase Access and Coordination

**Background: Why are we talking about this?**

<table>

<tr>
<th>1990s</th>
<th>2000s</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mill Closures / Timber Industry Decline</td>
<td>Population Growth in Central Oregon</td>
</tr>
<tr>
<td>State Hospitals Deinstitutionalized</td>
<td>Housing shortage</td>
</tr>
<tr>
<td>US Wars impact on Veterans</td>
<td>Rising suicide rates</td>
</tr>
<tr>
<td>Tech Advancement &amp; Screen Time</td>
<td></td>
</tr>
</tbody>
</table>

Mental health affects how we think, feel and act. It determines how we handle stress, relate to others, and make choices. Mental health challenges can increase the risk of physical health problems such as stroke and heart disease. Individuals benefit significantly from intensive coordination of care and outreach activities, which are less available in remote areas of Central Oregon.

**Current Condition: What’s happening right now?**

- Approximately 1 in 4 adults over 55 in Central Oregon reported a diagnosis of depression
- Percentage of students who reported feeling sad or hopeless has been generally trending upward
- 64% of individuals who died by suicide visited their primary care provider within one year prior to their death

**Current State Metrics:**

1. Availability of behavioral health providers is less in the rural areas of the region
2. No way to measure timeliness and engagement with specialty behavioral health when referred by primary care
3. No standardize screening processes for appropriate levels of follow-up care across services

**Goal Statement: Where do we want to be in 4 years?**

**Aim/Goal**

Increase equitable access to skilled and coordinated care between specialty behavioral health and the larger health system, including primary care, while decreasing barriers to ensure an effective and timely response.

**Future State Metrics - By December 2023:**

1. Increase availability of behavioral health providers in marginalized areas of the region.
2. Increase timeliness and engagement when referred from primary care to specialty behavioral health.
3. Standardize screening processes for appropriate levels of follow-up care across services.

**Analysis: What’s keeping us from getting there?**

- Care is culturally inappropriate and unresponsive
- Behavioral Health Careers are undervalued, underappreciated and not at parity with medical health
- Siloed communication and coordination across systems and agencies
- Behavioral Health Conditions are viewed as a character weakness
- Systemic undervaluing & underfunding of Behavioral Health
- Disjointed systems do not address whole person care

**Focused Implementation: What are our specific actions? (who, what, when, where?)**

(insert)

**Follow-Up: What’s working? What have we learned?**

(insert)
| Root Cause Barriers: What is blocking us from moving toward our future state measures? |
|---------------------------------|-----------------------------------------------|---------------------------------------|-----------------------------------------------|-----------------------------------------------|-----------------------------------------------|
| Care is culturally inappropriate and unresponsive | Siloed communication and coordination across systems and agencies | Systemic undervaluing & underfunding Behavioral Health | BH careers are undervalued, under-appreciated and not at parity with medical health | BH conditions are viewed as a character weakness | Disjointed systems do not address whole person care |
| Cultural barrier of trust with minority groups (Persons of Color, veterans, etc) | Systems & policy do not support care coordination | Funding lessons from COVID (billing codes, purchase of phones/tablets) | Limited pathways to BH careers in region (recruitment of HS, minority & Bilingual) | Culture of individualism (pull yourself up by your bootstraps) | Basic needs (housing, transportation, communication) trump behavioral needs |
| Insufficient knowledge of dyadic therapies for children/families | Needs assessments differ between groups | High cost of living/insufficient reimbursement rates | Education & training for providers from marginalized groups | Stigma: neuroscience vs. Flawed character | Insurance limitations for undocumented & incarcerated people |
| Insufficient knowledge of dyadic therapies for children/families | Organizations are siloed/don't communicate | Prioritization of screening tools which are reimbursed | Career trajectory out of agency work leaving a “brain drain” | Unaffordable and inaccessible technology |
| Screening processes are not humanistic | Behavioral health operates in silos | Insurance reimbursement policies | Incentives for rural providers, practice & communication |
| Dysfunction Provider Directories | Need for more residential beds | Remote location work not incentivized |
| HIPAA/Privacy Myths | Services are not political priority | Wages don't match cost of living |
| Mental Health dollars cannot cross county lines | Need for bilingual BH specialists |
| Funding Payor Issues |
### STRATEGIC DIRECTIONS: What Moves Us Toward Our 2023 Practical Visions

<table>
<thead>
<tr>
<th>Promote Comprehensive Staffing Retention Models</th>
<th>Expand, Train, and Support the Workforce</th>
<th>Develop and Pay Traditional Health Workers</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Incentivize providers to work in rural areas</td>
<td>• Pursue OHSU psychiatric resident rotation for child psychiatrists</td>
<td>• Develop a “Promotora program” within the different community groups</td>
</tr>
<tr>
<td>• Pursue incentivizing local psychiatric nursing jobs with COCC, OHSU, Linfield</td>
<td>• Having Mental Health be developed as a career path in large and small communities, by educating high school students about career</td>
<td>• Train people from local neighborhoods into THW, CHW jobs in those communities. Churches as a source of contact</td>
</tr>
<tr>
<td>• Pay to Stay programs through PacificSource to support providers working in rural and underserved communities</td>
<td>• Early recruitment of a diverse workforce – start in elementary and middle schools</td>
<td>• Develop and highlight BH opportunities for peer delivered services</td>
</tr>
<tr>
<td>• More hiring incentives and research around our veterans.</td>
<td>• Develop shadowing program of BH careers for high schoolers</td>
<td>• Pilot project for employing and reimbursing THW and Peer Support Specialists</td>
</tr>
<tr>
<td></td>
<td>• Develop relationships between the health council and local schools with mental health programs like OSU/PSU</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Increase people of color in the workforce; what opportunities to partner with COCC, OSU, OHSU</td>
<td></td>
</tr>
</tbody>
</table>

### Increase Coordination and Access

- Connect CHW with Latinx community to better connect care to communities
- Build centralized streamlined referral hub or team
- Not just about access but about quality of services received; could be measured, e.g. completion of treatment
- Host monthly provider meetings
- Develop method to measure timeliness and engagement with specialty behavioral health
- Develop closed loop referral processes
- Offer transportation to and from Central Oregon Communities

### Increase Cultural Responsiveness of Service Delivery

- Build community coalition capacity to address health inequities related to substance use and mental health
- Use Culturally and Linguistically Appropriate Services (CLAS) Standards
- Cultural needs assessment for BH
- Have experience engaging with Latinx parents, supporting them in accessing behavioral health services
- Project where seasoned providers attempt to reach specific populations based upon culture, diagnosis, etc. and provide culturally-based treatment
- Provide same sex interpreter and/or traditional health workers for women patients
- Behavioral Health screening at intake in the individuals’ primary language
- Communicate in a more meaningful, basic, and understandable way.

### Strengthening & Expanding the Behavioral Health Workforce

### Improving Coordination and Access to Culturally Responsive Behavioral Health Care
### Promote Mental Health for All across the lifespan

- Identify and implement strategies to work collaboratively with organizations whose activities advance health equity and promote Health in All Policies
- Destigmatize by putting on a program for junior high and high school students. Partner with Younity.
- Partner with NAMI of Central Oregon (National Alliance of Mental Illness) to host an event to destigmatize mental illness
- Provide monthly rotational community events to destigmatize mental health
- Host a Zoom presentation on a topic that would cover destigmatization
- Utilize high level speakers strategically to dispel the myth that mental health is a character weakness.

### Advocate for Better Funding

- Pay for insurance advocate to advocate for higher reimbursement for Behavioral Health services
- Lobby at the state level for funding for providers
- Advocate to have (BIPOC) traditional approaches reimbursed
- Create value based contracting that has metrics tied to access, engagement and outcomes
- Value based contracting
