Substance and Alcohol Misuse: Prevention and Treatment

Future State Measures – Full Detail

1. By December 2023, only 25% of adults aged 18 to 34 in Central Oregon reported binge drinking on at least one occasion over the past 30 days.
2. By December 2023, reduce the percentage of Central Oregon 11th grade students who report vaping or using e-cigarettes by 10% percent in each county, resulting in only 20.2% in Crook County, 26.5% in Deschutes County, and 14.9% in Jefferson County (OR Student Health Survey).
3. By December 2023, 30% of Medicaid members (ages 13 and older) who are newly diagnosed with alcohol or other drug dependence and who began treatment within 14 days of the initial diagnosis will have two or more additional services for alcohol or other drug dependence within 30 days of their initial treatment. (Quality Incentive Measure (QIM))
4. By December 2023, Mental Health/Substance Abuse Emergency Department visits per 1,000 will be reduced by 25% in highest rate locations:

Warm Springs	Prineville	Madras
35.3	15	13.8

Land Acknowledgement

We recognize and acknowledge the indigenous land of which we live, work, learn, play, and grow. This is the land of the Warm Springs, Wasco, Northern Paiute, Tenino, Klamath, Molalla, and Yahooskin. We acknowledge them as the past, present, and future caretakers of this land. It is on their traditional land where we partner to improve the health and well-being of Central Oregonians. We aspire to be good guests honoring the concept in the Warm Springs culture: “This land is for you to know and live upon and pass on to the children.”

Substance and Alcohol Misuse: Prevention & Treatment

Background: Why are we talking about this?	
<p>1980s social norming of alcohol increases / legalization of brew pubs on Oregon</p> <p>1990s opioids are introduced for pain treatment</p> <p>2007 E-cigarettes are introduced in the US</p> <p>2016 marijuana is legalization in Oregon</p> <p>2019 Surgeon General Report on Marijuana</p>	<p>1 in 10 Oregonians struggle with drugs or alcohol costing the state \$6 billion /year. These illnesses are common, recurrent and treatable. Research indicates that preventing substance misuse can have far reaching implications for individuals, families and our community, including impact on education, community safety, health care, employment and quality of life.</p>

Current Condition: What's happening right now?
<ul style="list-style-type: none"> As of 2019, 19 cases of vaping related illnesses have been reported in OR, leading to 2 deaths Oregon has one of the highest rates of misuse of prescription opioids in the nation Deaths from methamphetamine overdoses in Oregon are up 400% between 2012 and 2017 <p>Current State Metrics:</p> <ol style="list-style-type: none"> 37.4% of adults age 18-34 in Central Oregon reported binge drinking at least once in the past 30 days 11th graders vaping or using e-cigarettes: Crook 22.6%, Deschutes 29.4%, Jefferson 16.6% 7.8% of Medicaid members diagnosed with alcohol or drug dependence and who began treatment within 14 days of diagnosis, had 2 or more additional services within 30 days of initial treatment Mental health / substance abuse ED visits per 1,000: Warm Springs 47, Prineville 20.1, Madras 17.2

Goal Statement: Where do we want to be in 4 years?
<p>Aim/Goal Create and enhance cross-sector collaborations and programming so that all Central Oregonians have equitable access to skilled, evidence-based substance and alcohol misuse prevention, intervention, treatment, and recovery services that are culturally responsive and trauma-informed.</p> <p>Future State Metrics - By December 2023:</p> <ol style="list-style-type: none"> Decrease binge drinking among adults. Decrease vaping or e-cigarette use among youth. Increase additional services for alcohol or drug dependence for individuals newly diagnosed. Reduce mental health/substance abuse emergency department visits in Madras, Prineville and Warm Springs.

Analysis: What's keeping us from getting there?
<ul style="list-style-type: none"> Targeted seductive marketing encourages use Minimization of risk & harm impact prevention & care Data is not easily accessible or known Historical investment patterns impact SUD services Alcohol culture dominates the local lifestyle Inadequate screening & guidance at all contact points Trauma significantly impacts well-being Inaccessible & inequitable housing options Inconsistent & ineffective health messaging Pervasive stigma impedes prevention & access to care

Strategic Direction: What are we going to try?	
<p>Date updated: 3.04.22</p> <ul style="list-style-type: none"> Expanding Prevention and Community Education Broadening Partnerships to Align Efforts Diversifying and Expanding Intervention and Treatment Accelerating Systems, Policy and Environmental Change Formalizing Diverse, Welcoming Approaches
