Passcode: 685088

Friday, October 21, 2022

10:30am-12:00pm

Future State Metrics

1. By December 2023, decrease the combined severely rent and mortgage burdened households in Central Oregon by 2 percentage points to 16%.
2. By December 2023, 50% of Housing Choice Vouchers (HCV) holders will be able to find and lease a housing unit.
3. By December 2023, a comprehensive system for accurately capturing the extent of Central Oregonians experiencing homelessness will be in place and utilized.

Promote Enhanced Physical Health Across Communities

Regional Health Improvement Plan Workgroup

Future State Measures – Full Detail

1. By December 2024, decrease chronic disease rates by 10% in each County, age-adjusted:

	Crook County	Deschutes County	Jefferson County
Asthma (%)	7.4	8.2	12.9
Cancer (%)	7.0	6.4	4.9
Cardiovascular Disease (%)	8.7	4.3	5.1
Diabetes	9.5	5.3	18.3

2. A.) By December 2024, reduce adult obesity rates in Central Oregon Region by 7% in each county:

Crook County	Deschutes County	Jefferson County
29.3%	19.9%	39.2%

2. B.) By December 2024, increase the percentage of Central Oregon youth who meet the physical activity and fruit/vegetable consumption goals by 10 percentage points in each county to:

8 th Grade Rates	Crook County	Deschutes County	Jefferson County
Percentage of students reporting 60 minutes or more of physical activity in the last 7 days.	47%	38%	32%
Index of 6 fruit and vegetable consumption questions, what percentage of youth are getting at least 5 servings of fruit or vegetables per day.	38%	33%	41%

11 th Grade Rates	Crook County	Deschutes County	Jefferson County
Percentage of students reporting 60 minutes or more of physical activity in the last 7 days.	39%	26%	30%
Index of 6 fruit and vegetable consumption questions, what percentage of youth are getting at least 5 servings of fruit or vegetables per day.	31%	26%	25%

3. By December 2024, decrease risk factors that contribute to Cardio-Pulmonary Disease and/or Preventable Disease by 7% in each county:

	Crook County	Deschutes County	Jefferson County
Age-adjusted % of adults who currently smoke	24.5%	16.1%	11.9%
The age-adjusted rate of persons hospitalized for stroke per 100k	196.0	190.0	319.0
The age-adjusted rate of persons hospitalized for diabetes per 100k	86.0	59.5	128.5

4. By December 2024, decrease 5-year rates and/or 5-year case counts of STIs by 20%:

	Crook County	Deschutes County	Jefferson County
The 5-year age-adjusted rate of gonorrhea per 100k	52.7	23.5	95.8
	Central Oregon		
5-year syphilis case count	37		
5-year HIV case count	21		

5. By December 2024, increase the percentage of PacificSource (Central Oregon CCO) Medicaid members, at any age, who received both an annual wellness visit by a Primary Care Provider and a preventive dental visit by a member of the Oral Health Care Team by 10 percentage points to:

Crook County	Deschutes County	Jefferson County
29.8%	32.75%	31.3%

Land Acknowledgment

We recognize and acknowledge the indigenous land on which we live, work, learn, play, and grow. This is the land of the Warm Springs, Wasco, Northern Paiute, Tenino, Klamath, Molalla, and Yahooskin. We acknowledge them as the past, present, and future caretakers of this land. It is on their traditional land that we partner to improve the health and well-being of Central Oregonians. We aspire to be good guests honoring the concept in the Warm Springs culture: "This land is for you to know and live upon and pass on to the children."

Promote Enhanced Physical Health Across Communities

RHIP Workgroup Virtual Meeting

**Central Oregon
Health
Council**

Regional Health Improvement Plan (RHIP) Workgroup

Guiding Principles

Shared Focus

We come together to improve the health and well-being of individuals living in various and diverse communities throughout Central Oregon region. We use the Regional Health Improvement Plan (RHIP) as our guide. It is our region's shared vision of current problems and our aims. As workgroup partners we develop agreed-upon actions to solve the issues and keep the needs of our communities as the main focus.

Shared Metrics

We measure progress, process and outcomes through a shared lens. We use the Regional Health Assessment (RHA), Regional Health Improvement Plan and community dashboard.

Involve Targeted Population

The individuals living in our diverse Central Oregon communities are the center of our work. We make every effort to include people from every part of the region in our workgroups, discussions, processes and decisions.

Collaborate to Solve Complex Issues

Inviting diverse perspectives from throughout the Central Oregon region deepens our shared understanding of complex issues and propels us toward better progress and outcomes. We practice frequent, structured, open communication to build trust, assure shared objectives, and create common motivation. We respect the privacy and sensitivity of information partners share.

Coordinate Collective Efforts

We are made up of diverse partner organizations and individuals with unique strengths, skills, and resources. We coordinate our efforts and use our unique strengths and skills to meet the goals of the RHIP.

Learn and Adapt Together

We embrace shared learning and a growth mindset. We create a space that allows for mistakes, failures, second changes, and a celebration of brave attempts. We adjust and apply our learnings to the complex and changing landscape of health and well-being in Central Oregon.

Five-Year Investment Overview
All Workgroups
 January 2020–December 2024

Budget	Spent	Available
\$12,000,000	\$7,046,943	\$4,953,057

Workgroup	Spent	Available
Address Poverty	\$941,994	\$1,058,006
Behavioral Health	\$1,879,623	\$120,377
Physical Health	\$1,116,132	\$883,868
Stable Housing	\$1,119,654	\$880,346
Substance and Alcohol Misuse	\$581,214	\$1,418,786
Upstream Prevention	\$1,408,326	\$591,674.00

PHYSICAL HEALTH 2022 Budget						
Overview						
		Budget	Spent	Available		
	5-Year	\$2,000,000	\$1,116,132	\$883,868		
	Cycle to Date [1]	\$1,000,000	\$1,116,132	-\$116,132		
	Yearly Mini-Grant	\$0	\$0	\$0	* declining mini grants, will reassess at future point	
By Future State Measure (5 year)						
	Budget* [2]	Spent	Available [3]	Currently Allocated [4]	Projected Available [5]	Notes [6]
Chronic Disease (1)		\$15,048.81 [7]	-\$15,048.81		-\$15,048.81	
Fruit, Veggie & Activity (2)		\$544,970.48 [8]	-\$544,970.48		-\$544,970.48	
Preventable Disease (3)		\$23,612.75 [9]	-\$23,612.75		-\$23,612.75	
Obesity (4)		\$0.00	\$0.00		\$0.00	
Sexually Transmitted Illness (5)	\$500,000.00	\$500,000.00	\$0.00		\$0.00	
Wellness and Dental (6)	\$500,000.00					
*Budget for each FSM reflects the agreed upon 5 year 'soft budget' minus the portion contributed to shared mini grant budget.

Organization	Process	Project	Award	Decision Date	Future State Measure	Latest Report

Mosaic Medical	Standard Grant Improving Youth Physical Activity and Fruit/Vegetable Consumption (2020-2024 RHIP)	Rx to Move	\$72,800.84	1.3.22	Increase fruit/vegetable consumption and physical activity among youth	Progress Report	
Jefferson County Public Health Department	Standard Grant Improving Youth Physical Activity and Fruit/Vegetable Consumption (2020-2024 RHIP)	Learning good health habits early in life to prevent chronic disease	\$117,857.48	1.3.22	Increase fruit/vegetable consumption and physical activity among youth	Progress Report	
OSU Extension	Standard Grant Improving Youth Physical Activity and Fruit/Vegetable Consumption (2020-2024 RHIP)	Let's Be Active and Eat More Fruits and Veggies with OSU Extension Service	\$43,500.00	1.3.22	Increase fruit/vegetable consumption and physical activity among youth		
High Desert ESD	Standard Grant Improving Youth Physical Activity and Fruit/Vegetable Consumption (2020-2024 RHIP)	Creciendo Girasoles (Growing Sunflowers): Version 2.0	\$125,000.00	1.3.22	Increase fruit/vegetable consumption and physical activity among youth		
Crook County Health Department	Standard Grant Regional Coordination: Sexually Transmitted Infections Full Application (2020-2024 RHIP)	Central Oregon STI/HIV Prevention Public Health Collaborative	\$500,000.00	6.1.22	Decrease Gonorrhea, Syphilis, and HIV rates or case counts		

Promote Enhanced Physical Health Across Communities

Background: Why are we talking about this?

<p>1990s Rise in obesity rates Increased sugar consumption</p> <p>2000s Decrease in recess time at school Increasing Aging Population Tech Advancement & Screen Time Vaping / E-cigarettes</p>	<p>Physical health is influenced by genes and biology, health behaviors, social environment, physical environment, and health services. Enhancing physical health throughout our communities improves quality of life and reduces the burden of healthcare and other costs to personal and public health. Access to healthcare is a challenge for residents in rural areas.</p>
--	---

Current Condition: What's happening right now?

- Current rates of cardiovascular disease: Crook 9.7%, Deschutes 4.8%, Jefferson 5.7%
- Current rates of diabetes: Crook 10.6%, Deschutes 5.9%, Jefferson 20.4%
- Current adult obesity rates: Crook 31.5%, Deschutes 21.4%, Jefferson 42.2%
- Fewer than 30% of 11th graders report 60 minutes or more of physical activity in 7 days
- Fewer than 25% of 11th graders report getting 5 or more servings of fruits and vegetables per day
- Adults who currently smoke: Crook 29.3%, Deschutes 17.3%, Jefferson 12.7%
- Adults reporting high blood pressure: Crook 48.8%, Deschutes 24.8%, Jefferson 16.9%
- New cases of syphilis have been steadily increasing in the entire region since 2012
- Percentage of Medicaid members who receive both annual wellness visit and preventive dental visit: Crook 17.8%, Deschutes 20.75%, Jefferson 19.3%

See RHIP for Full Current State Metrics

Goal Statement: Where do we want to be in 4 years?

Aim/Goal
Equitably and measurably support all Central Oregonians to prevent disease by improving health behaviors and reducing risk factors that contribute to premature death and diminish quality of life.

Future State Metrics - By December 2023:

1. Decrease asthma, cancer, cardiovascular disease, and diabetes rates
2. Decrease obesity rates in adults
3. Increase fruit/vegetable consumption and physical activity in youth
4. Decrease risk factors for cardio-pulmonary and/or preventable disease
5. Decrease sexually transmitted infections
6. Increase individuals receiving both an annual wellness visit and preventative dental visit

Analysis: What's keeping us from getting there?

- Inequitable measurement and approaches to weight and health management
- Rigidity of time, funding/payment, availability of service and receiving service
- Disparate funding and deceptive marketing
- Siloed systems prevent coordination of care
- Power dynamics adversely affect and create an underrepresentation in policy creation
- Trauma without resilience skills negatively impacts health
- Resource inequality exacerbates health disparity
- Individual and collective health beliefs impact health literacy efforts
- Restrictive and inequitable built environment impacts health

Date updated: 5.2022

Strategic Direction: What are we going to try?

- Reducing financial barriers to health
- Ensuring access and coordination of health services
- Improving health & wellness communication, education & delivery
- Partnering with underserved communities for equitable decision making
- Ensuring policies that promote health and an equitable built environment

Focused Implementation: What are our specific actions? (who, what, when, where?)

Mosaic Medical	Rx to Move	2022-2023	Region
Jefferson County Public Health	Learning Good Health Habits	2021-2022	Jefferson
OSU Extension	Let's Be Active & Eat Fruits/Veggies	2022-2024	Region
High Desert ESD	Creciendo Girasoles (Growing Sunflowers)	2022-2023	Region
The Giving Plate	Fruits & Veggies for Kids	2021-2024	Deschutes
Crook, Deschutes and Jefferson County Public Health	Regional STI/HIV Prevention Public Health Collaborative	2022-2024	Region

Follow-Up: What's working? What have we learned?

{insert}

Enhanced Physical Health Across Communities

Root Cause Barriers: What is blocking us from moving toward our future state measures?

Rigidity of time funding/payment, availability of service and receiving service	Individual and collective health beliefs impact health literacy efforts	Restrictive and inequitable built environment impacts health	Resource inequality exacerbates health disparity	Trauma without resilience skills negatively impacts health	Power dynamics adversely affect and create an underrepresentation in policy creation	Insufficient integration of systems prevents coordination of care	Inequitable measurement and approaches to weight and health management	Disparate funding and deceptive marketing
Scheduling of classes and educational groups mostly 9-5, adding burden to working adult	STD education is inadequate and not working	Transportation to preventable dental care	Affordability and accessibility to fresh fruits & veggies	Trauma	Policies don't encourage representation by those most effected	Chronic conditions are complex and are treated in a silo'd way	Healthcare system that proactively ignores the individuals needs and mostly supports the affluent	Targeted Marketing to Youth
Working time is barrier to PA - only affluent can fit it in	Hours and transportation limit access to early education	Walkability and distance to access stores, parks, etc.	Cost is #1 barrier to sports participation for low income families	Lack of family structure	School-based health center limits on education and prevention	Workflows are not easy for clinics, with scheduling being an obstacle	Focus on obesity rates with an individual can lead to fat shaming and it's not supportive	Food industry messaging, education
Inaccessibility to services	Cultural differences in health practices and health literacy	Physical activity engineered out of our lifestyles	Ability to pay for dental care		School support for gardening and growing fresh fruits and veggies	Dental appointments aren't scheduled	Remove weight stigma and work to create healthy relationships with food	Media - social media exposure, marketing targeting audiences
Access / time	Constrained parental engagement	Transportation	Poverty		Shifting political climate shifts priorities		Public perception that eating healthy means it doesn't taste good	
	Understanding risk factors for disease	Environmental factors	Insurance coverage					
	Unstable Family Structure	Food deserts					Stigma silences people	
	Education							

STRATEGIC DIRECTIONS: What Moves Us Toward Our 2023 Practical Visions

Coordinate Funding	Reduce Financial Barriers to Physical Activity	Cover Insurance Gaps
<ul style="list-style-type: none"> Expand Double Up Bucks A centralized Central Oregon Grant Services organization Support intersectional work by different agencies (schools, housing, etc.); reference current conversation about redistribution funds for policing to health and education 	<ul style="list-style-type: none"> Resource for families falling through the cracks to access recreation Provide sports registration fees Partnership between PacificSource and other park and recreation departments (like BPRD partnership) Resource inequality - increase scholarships to physical activity opportunities Free summer camps for kids in rural communities – not just sports Movement for every body – eliminating the pay to play, focus on the fun of movement Remove pay to play for sports 	<ul style="list-style-type: none"> Community Rural Health Programs (not insurance-based) Funding pool to cover copay/co-insurance

Reducing Financial Barriers to Health

Ensure community members have access to transportation to health-related activities & services	Improve access to resources that improve health and wellness services	Improve service coordination
<ul style="list-style-type: none"> Discover and coordinate transportation resources (for medical and non-medical needs) Mandatory question at all health care and dental visit intake to ask about transportation needs and provide contact to transportation services Incentivizing OHP signup and providing transportation services 	<ul style="list-style-type: none"> Integrated primary care at time of services (Bodenheimer model per Richard Bennett) – with Behavioral Health, physical therapy, other services immediately available Meet people where they are; homeless groups, their lens. Some groups not aware of services/resources. How to reach the underserved. Create and mobilize mobile medical/ dental/ other services (food market stand, pharmacy, etc.) 	<ul style="list-style-type: none"> Nurse navigator for people with chronic conditions to coordinate between different specialists Risk stratification (similar to DHS) for a best match for services Reach out to partners to assess, identify, and implement strategies to better communicate information that meets the language, literacy, and cultural needs of the community Offer incentives for scheduling medical and dental appointments (PacificSource) Reach Medicaid and Medicare members using member support specialists. Understanding environmental context.

Ensuring access and coordination of health services

Destigmatize weight	Create counter and alternative marketing	Diversify Health Promotion Approaches
<ul style="list-style-type: none"> • Educate providers and insurance companies to regard individual health as a whole- not just BMI • Focus on other surrogates of health, not just BMI to address patient health • “Ditch the BMI” training • Explore “Health at every size” movement and their approaches and resources 	<ul style="list-style-type: none"> • Work with news stations to maintain equitable marketing, offer commercials that provide accurate marketing • Media campaign for cheap, healthy dinners 	<ul style="list-style-type: none"> • Increase workplace wellness programs • Create a comprehensive app on student devices that educates on prevention, etc. and promotes activity, gamifying activities and tracking health to see needs • Make health education classes virtual • Trauma Resilience: Resilience training for students and teachers • Group class on resiliency (one of our organizations represented already offers group classes, maybe Mosaic.

Improving health and wellness communication education and delivery

Advocate for State and Local Policy	Develop healthy and equitable built environment
<ul style="list-style-type: none"> • Provide insurance for all • Support progressive policies and curriculum in sexual health education, using research, stop using abstinence only program • Tobacco retail licensing • Increase price of sugary drinks 	<ul style="list-style-type: none"> • Built environment to support safe activities • 10minutewalk.org – ensuring everyone in community has access to safe green spaces 10 minutes from their homes (safe route) • Use Health Impact Assessments to evaluated plans before construction • Joint Use Agreements • Use school grounds for public green spaces • Increase gardening opportunities for kids • Mandatory built environment regulation for new subdivision developments • Encourage city zoning to be close to work and home for those who lack transportation

Ensuring policies that promote health and an equitable built environment

Partner with underserved communities in leadership and decision-making
<ul style="list-style-type: none"> • Work directly with communities to co-create policies, programs, and strategies to ensure that health interventions are equitable and culturally responsive • Include people with lived experience on board by providing compensation so they can attend • Identify commonalities across different underserved populations that could be used to design strategies to meet the needs of all the different subgroups • Power dynamics: Policy Processes (including this one) should include those that are affected • Use underrepresented voices to drive decision-making on top strategies for workgroup

Partnering with underserved communities for equitable decision-making
