Standard Grant Scorecard

Category (Where to find it in the application)	Points
Project Details (See application Part 3) • It is easy to understand what the project plans to do. • It is clear through data, lived experience, expert advice or other ways that the project is needed. • The applicant knows what else is happening in the community to address this need. • It is clear how this project impacts Regional Health Improvement Plan Future State Measure(s). • If supporting questions are asked, they are addressed clearly and fully.	__/25
Diversity, Equity and Inclusion (See application Part 3) • The project includes strategies to meet the characteristic needs of the people being served • The people served by this project are involved in the planning and carrying out the project. • This project will serve at least 50% people from communities experiencing health disparities based on geography, age, sex, race, ethnicity, national origin, language, culture, disabilities, immigration status, faith, gender identity and sexual orientation	__/25

Evaluation and Sustainability (See application Part 5)
 	
• The evaluation describes how the project will be measured.
    o Measurements can be both qualitative (ex. describing outcomes such as increased awareness, stronger working relationships, etc.) and/or quantitative (ex. numbers of people served, numbers of outreach events held, etc.)
 	
• The outcome clearly states how people will be better off because of the project.
 	
• The project includes multi-cultural measurement such as:
    o testimonials, diary accounts, story telling
    o ways that capture more than words such as photographs, videos, sound recordings
    o open-ended surveys, focus groups, case studies, unstructured interviews
	__/15

Project Support and Partnerships (see application Part 6) • This project is supported by other community partners who have clearly worked together on development of this project, and plan to continue throughout its duration. • Support and sustainability are clearly demonstrated by one or more: Letter of Understanding, money support, matching, in-kind or volunteer support. • Community Partner Support Letter(s) show that everyone owns the work of this project. There is mutual trust and respect. All partners participate in planning, creating and making decisions.	__/20
Budget (see application Part 7) • The budget shows the amount of funding requested in the application, and any other funding from other organizations and/or donated services. • The amount of funding requested makes sense for how long the project will last, how simple or complex it is, where it will happen and who is involved.	__/15
